

We market our products in many countries of the world. Again and again we and our partners in the field receive interesting reports from dairy farmers and scientists. We are happy to process this information to you and hope that you will find it helpful. Send us your suggestions – we count on them to help us give you a better product!

Many thanks, your KRAIBURG Team

## THE DEEP LITTER CUBICLE CUSHION KRAIBURG POLSTA: PREFERENCE TEST AND CUSTOMER SATISFACTION

In an operation with 85 deep litter cubicles (42 with the deep litter cubicle cushion POLSTA, 43 without POLSTA) the preference behaviour of 80 dairy cows was tested.

**Cows prefer the deep litter cubicles with POLSTA:** Already after 10 minutes half of the cubicles with POLSTA were occupied, whereas it took 20 minutes more to occupy half of the cubicles without mats. Overall, the occupancy of the cubicles with POLSTA was higher.

POLSTA is installed in the head space of the deep litter cubicle

### Experiences with POLSTA:

(from interviews with 25 farmers)

- improvement of the cubicle's head space
- the animals accept the cubicles very well  
-> higher attractiveness
- up to 50 % less straw and time for maintenance
- more cow comfort
- better lying down behaviour
- easy installation of the mats
